April 2022

Jafra for Relief and Youth Development

April was marked by a number of notable commemorations in Jafra's eyes. The Palestinian Prisoner's Day, the Deir Yassin Massacre, the Day of the Palestinian Child, and the Jenin Massacre are all occasions that should be remembered and communicated to the younger generations. We will never forget the atrocities committed against the Palestinian people in the past or present.

During Ramadan, Jafra organizes special activities and actions, as it does every year. While the Food Production workshops made specific food items that could be added to the daily Iftar, the children could enjoy special crafts and stories.

April marks the arrival of warmer weather and the start of the planting season. The owners, team, and agronomist of Jafra Urban Rooftops doubled down on their efforts to create more beds, sow seeds, transfer plants, and even harvest.

The Qudsaya Jafra Center is introducing a new initiative called Me and My Family, which consists of awareness-raising sessions. Participants will be able to hear, understand, and discuss various topics such as gender and gender-based violence.

JAFRA IS TURNING
20
عَاماً مَرَّت...
...

The Jafra Foundation is turning 20 in 2022, already. We didn't notice the passage of time. We have continued to love collaborating and coordinating with volunteers, children, youth, and adults to strengthen the Palestinian community wherever arrived.
