The month of November 2023 is and will always be seen as a month of outrages, indiscriminate killings, genocide against the Palestinian people of Gaza. The children of Jafra decided to send their messages to the children of Gaza to show unconditional support to their peers who stayed in Palestine after 1948.

Along with providing the children and youth with informal education, Jafra provides the participants with extra English classes and computer sessions all along the school year. Children, youth and adults that are not going to the informal school can participate and increase their knowledge and skills in these two necessary soft skills.

Jafra held a series of first aid trainings; in time of conflicts, everyone should learn how to deal with injuries during emergencies. Readiness can help to survive catastrophes and conflicts.

Jafra Lebanon initiated several initiatives to serve the communities. Among them, a weekly cleaning campaign in Beddawi Camp and the rehabilitation of the football stadium and surrounding streets in Nahr el Bared. The football pit is again able to welcome local sports clubs and CSOs while streets are now lighted thanks to a solar technology.

In November, the project in cooperation with UNDP in the Bekka saw the distribution of food parcels to 371 families and harvesting the planted agricultural fields permitted to feed 100 more individuals with 10 different type of crops. The project gave the opportunity to women and men increasing their skills in cooking and planting.
